SLIP FLAP

Simple—Works with any standard flap

Long Lasting—Treated for excellent corrosion resistance

Innovative—Reinstall flap in less than one minute

Practical—Does not require tools or devices

Fail Safe—Uses simple and reliable mechanism that cannot fail

Light—Weighs only 10 pounds

Attractive—Improves the overall appearance of any vehicle

Profitable—Pays for itself in less than a year

Don't let hard earned profits **SLIP** away

- Cost to replace a mud flap at a shop—\$75
- Cost of on road service call—\$175
- Cost to travel one mile for repair—\$1.50
- Lost revenue for one hour delay—\$75

When flap pulls out, retrieve mud flap

Open cover

Replace mud flap on posts

Close and latch cover

That's it!

Quality Construction, Reliable Engineering

The patented **SLIP FLAP**

mud flap hanger is attractive, functional and very durable; paying for itself over and over.

The resistance-engineered torsion spring holds the flap in place under any driving conditions but will release when the flap is

caught under the tire before any damage occurs to the flap, the bracket or the **SLIP FLAP** unit.
